

Daniel Winkelmann III, R.Ph, President, Pharmacist

Dan has grown up in a pharmacy family and quickly learned the trade. He is proud to be the 4th generation to run the pharmacy. As a young boy, he would go in and clean up or stock shelves for the pay of an ice cream from Ted Drewes. One could say he has worked at Winkelmann Sons Drug Co most of his life, yet as a pharmacist since 1987. He went to Vianney High School and graduated from Saint Louis College of Pharmacy. He likes to work for his family owned business because he feels he can make a difference and continue on the family legacy. One could find Dan on the golf course, hiking various trails, cycling around town or just watching a Cardinals game with friends. He thinks of St. Louis as a small "Big Town" where you can run into people all the time.
