

Jen, Licensed Pharmacy Technician

Jen started with Winkelmann Sons Drug Co as a clerk and then in 2012 received her technician's license. She has learned most every aspect of the front of the store and now has the technician's duties down pat. Over the years, she has met and come to know most every customer that enters the pharmacy and gets to understand their needs. If she is not filing prescriptions in the pharmacy, she can be found playing softball or golf. Her professional team of choice is the St. Louis Cardinals. She says she likes Saint Louis because of the outside theater in Forest Park; The Muny. Who can blame her?
